

When designing this wine list, I had the idea of being able to present textbook pairings and daring combinations with our great selection of food, by offering a wider variety of grapes, locations, methods and, of course, reflecting on the classics.

We are aiming to offer you value for money on our straightforward wines, as well as on the more exclusive, rarer, higher priced items. We hope you can find something exciting and delicious for every occasion and at every level.

Each wine was carefully considered, happily tested and tasted by the members of our little establishment. Just to make sure we are on the right path! We hope that you will enjoy discovering our collection every bit as we have loved to assemble it for You!

### Sanziana, **Pinot Grigio**, 2018

Cramele Recas, Cramele Recas, Transylvania/Banat, Romania

Romania may not leap to the top of everyone's list of wine producing counties, but it has a serious history of wine production. Sanziana means 'maiden' or 'little witch' with strong links to local folklore, May Day celebration and the goddess of fertility Diana.

An opulent, yet zesty Pinot Grigio, with grapefruit, lemon and apple aromas. Light and refreshing!
